RE: Permit No. NJ0002429
2SD OXM 2000570

Dear Mr. Schmidt:

It has been determined after a review of your National Pollution Discharge Elimination System Application for Permit to Discharge, and/or other information received by this office, that a U. S. Environmental Protection Agency Permit is not required.

Enclosed herewith is an Affidavit of Exemption which you must complete as per the instructions and return to this office within seven days upon receipt of this letter.

Your cooperation in the NPDES program is very much appreciated.

Sincerely yours,

Richard A. Baker
Chief
